

2017

GMC National Training Survey Results

Oral and maxillo-facial surgery

| | |
|-------------------------------|-----------------|
| Census date: | 21st March 2017 |
| Trainee response rate: | 83% |

CONTENTS:

| | |
|--|---|
| Section 2 - REF Outliers&Benchmarking: | Reference tables containing information on outliers and benchmark groups used throughout the report. |
| Section 3 - All Indicators - Severn: | Severn Deanery performance across all indicators of the 2017 NTS Survey. |
| Section 4 - All Indicators - All Deaneries: | All Deaneries provider performance across all indicators of the 2017 NTS Survey. |
| Section 5 - Programme Benchmarking: | Programme Performance on the 2017 NTS for the Overall Satisfaction indicator by Deanery. |
| Section 6 - Programme Benchmarking by LEP: | Performance on all Indicators between 2012-2017 by Trust and Programme. |
| Section 7 - Outlier Trend: | Outlier Summary of performance on all Indicators between 2012-2017 by post specialty, programme group (Trust) and programme wide (Deaneries). |
| Section 8 - Sustained or Improved: | Summary of areas which have either sustained or improved 2016's results. |
| Section 9 - Challenges: | Summary of areas which have deteriorated against 2016's results. |
| Section 10, 11 and 12 - NTS Comments: | Summary of NTS patient safety and undermining comments: absolute numbers and thematic analysis. |
| Section 13 - Trainer Outliers: | Trainer survey outlier summary of all indicators in 2017 by the specialty of the Trainer (not the Programme of the Trainee). |

Reference Tables for Outlier and Benchmarking

Outliers:

Tab 5 'Outlier Trend' uses the colours below to display areas of +ve and -ve practice. Explanation of the outliers and calculations behind them are provided below.

| | | |
|--|--|---|
| Above outlier | +ve - report group mean is in top 25% and confidence is high | Report group mean is higher than the benchmark group interquartile range 3 (Q3) and the report group lower confidence level is higher than the benchmark group upper confidence level. |
| Within quartile 3, but not an above outlier | ?+ve - report group mean is in top 25% but confidence is variable | Report group mean is higher than the benchmark group interquartile range 3 (Q3) and the report group lower confidence level is <i>lower</i> than the benchmark group upper confidence level. |
| Within the inter-quartile range | - report group mean is in interquartile range. | Report group mean is higher than the benchmark interquartile range 1 (Q1) and lower than the benchmark group interquartile range 3 (Q3). |
| Within quartile 1, but not a below outlier | ?-ve - report group mean is in bottom 25% nationally and confidence is variable | Report group mean is lower than the benchmark group interquartile range 1 (Q1) and the report group upper confidence level is <i>higher</i> than the benchmark group lower confidence level. |
| Below outlier | -ve - report group mean is in bottom 25% nationally and confidence is high | Report group mean is lower than the benchmark group interquartile range 1 (Q1) and the report group upper confidence level is <i>lower</i> than the benchmark group lower confidence level. |

| | |
|---------------|--|
| n<3 | number of trainees is less than 3 |
| n=0 | zero trainees responded to this question |

Bench Mark Groups:

| Report | Description | Benchmark group | Example |
|-----------------------------|---|---|---|
| Trust / board | Looking at a trust / board in its entirety | All UK trainees | University Hospitals Bristol NHS Foundation Trust |
| Programme groups | Looking at a programme groups | All trainees in specific programme group | All *F1 trainees vs. All F1 trainees All *F2 trainees vs. All F2 trainees All CMT trainees vs. All CMT trainees All GP* trainees vs. All GPs in Secondary care trainees All HST trainees vs. Relevant HST trainees as by RCo (med vs med, surg vs surg etc.) <i>NB. Oncology is compared against Radiology Anaes F1/F2 incorporates ICM</i> |
| Programme by Deanery | Looking at all trainees within a programme at a given Deanery | All F1 trainees, all core programmes, all specialty programme, all GPs in general practice posts. | All Severn General Surgery trainees Vs All UK Higher Speciality Programmes All Severn GP trainees in Sec Care Vs All UK GPs in a Sec Care post All Severn CMT trainees Vs All UK Core Trainees |
| Trainer survey | Looking at Trainer survey results by Trust board by Trainer specialty | All non-GP trainers | All trainers in Plymouth vs. All non-GP trainers in the U.K. |

Provider Performance Across All 2017 NTS Indicators Compared to the National Mean*

*Benchmark Group = Programme Type by Deanery

Oral and maxillo-facial surgery

| Indicator | Mean | Outcome | Lower CI | Upper CI | n | SD | National Mean |
|-----------------------------------|-------|-------------------------------|----------|----------|-----|----|---------------|
| Adequate Experience | 66.00 | In Q1 but not a below outlier | 49.70 | 82.30 | 3-5 | 19 | 81.07 |
